

Stainless Steel Ballasted Flat Roof Mount

Features & Benefits

1. Few component and easy install
2. Stainless Steel 304 Material, high anti-corrosion performance
3. Using long-span cement block replace wind deflector, which has strong windproof performance and low cost.

| Specification | |
|----------------|----------|
| Tilt Angle | 5° 、 10° |
| Max Wind Speed | 42m/s |
| Max Snow load | 1.4KN/m2 |
| Material | SUS304 |

Components List

① Front Ballast Leg

② Mid Ballast Leg

③ Back Ballast Leg
