

| Technical Information | |
|-----------------------|---------------------------|
| Tilt Angle | 5° ~ 60° |
| Max Wind Speed | 55 m/s |
| Max Snow Load | 1.4KN/m ² |
| Material | Galvanized Steel Q235 |
| Warranty | 12 years quality warranty |

Features

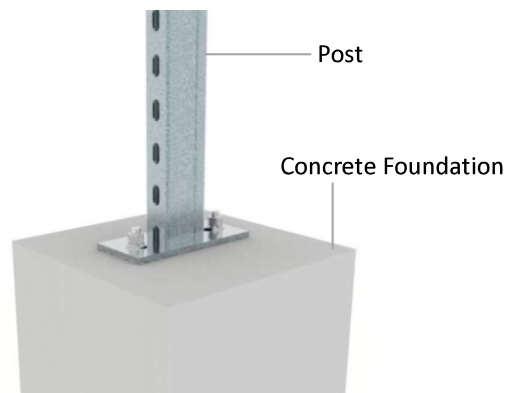

1. Suitable for different regions, such as low-cost concretes and high wind and heavy snow regions.
2. Ground screw foundation and concrete foundation can be acceptable
3. Parts have been high pre-assembly on factory to save your installation time
4. Simple and fast installation
5. High quality galvanized steel material

Foundation Types

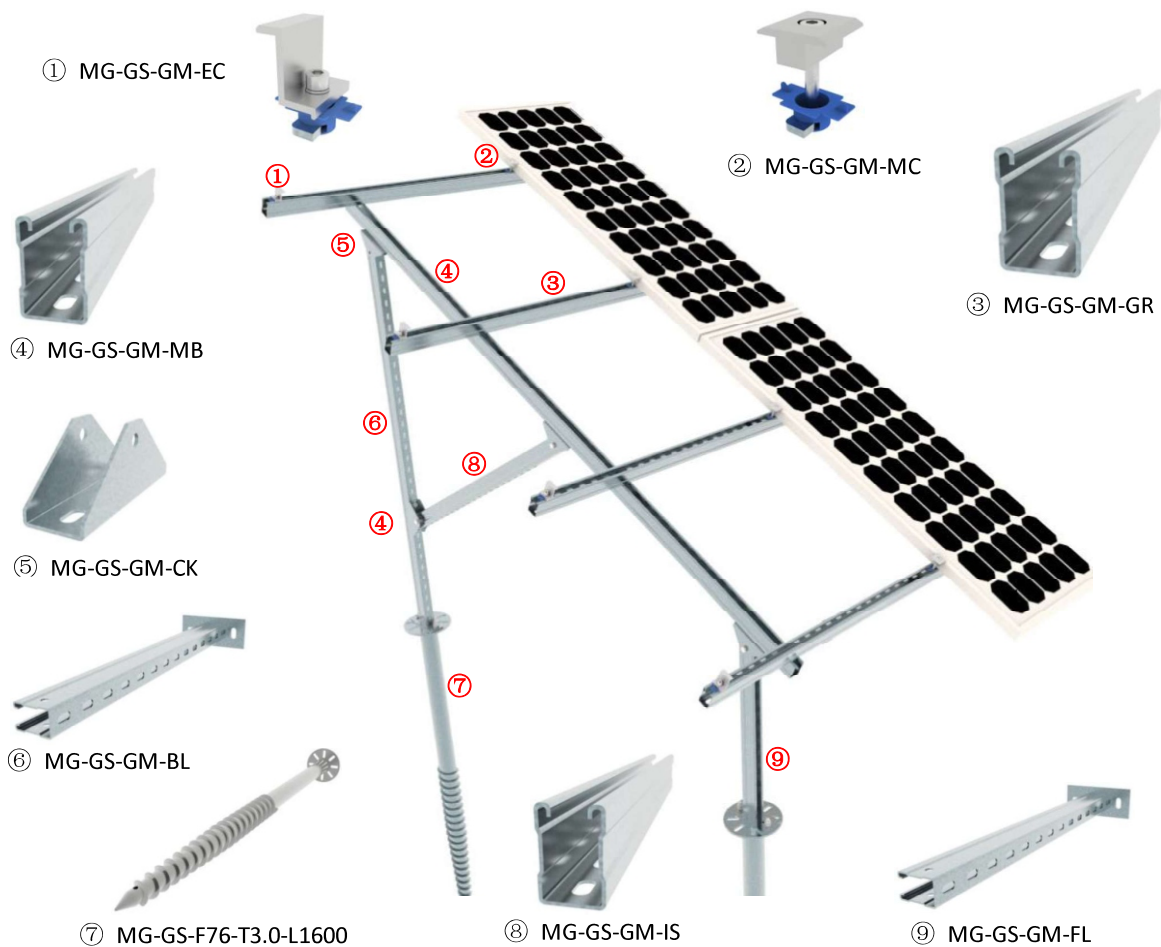

Ground Screw Pile Foundation

Concrete Foundation
